U.S. v. AVX Original  
Litigation Document

Dear Mr. Calvani:

Enclosed is a copy for Aerovox and yourself of the Draft Remedial Action Master Plan ("RAMP") for New Bedford Harbor. As the cover page indicates, this is a contractor's work product and does not necessarily represent final EPA policy. We are making it available for public comment between February 14, 1983 and March 14, 1983.

In response to your letter of January 31, 1983, we would be happy to meet with Aerovox, but it would seem more productive to wait until EPA and DEQE have had a chance to review it. Gerald Sotolongo tell me he expects our review to take a month. This would mean that we should plan on meeting in the week of March 15th. Please let me know if that sounds acceptable to you.

Finally, the computer data print-out which we have discussed is 263 pages. At \$0.20 a page, this would cost \$52.60. If Aerovox wishes to have this copied, please let me know, and send me a check.

If you or Aerovox have any questions concerning the draft RAMP, please feel free to call either myself at 223-4635, or Gerard Sotolongo at 223-5775.

Yours sincerely,

Charles Bering  
Attorney  
Office of Regional Counsel
